

BARRIERS TO FRESH FOOD ACCESS GROCERY SHOPPING BY CITY BUS

Jean-Daniel M. Saphores[✳], Sabah Hossain Iqra[✳], Anne C. Bellows[✳], Rhonda S. Vesey[♥] (2026)

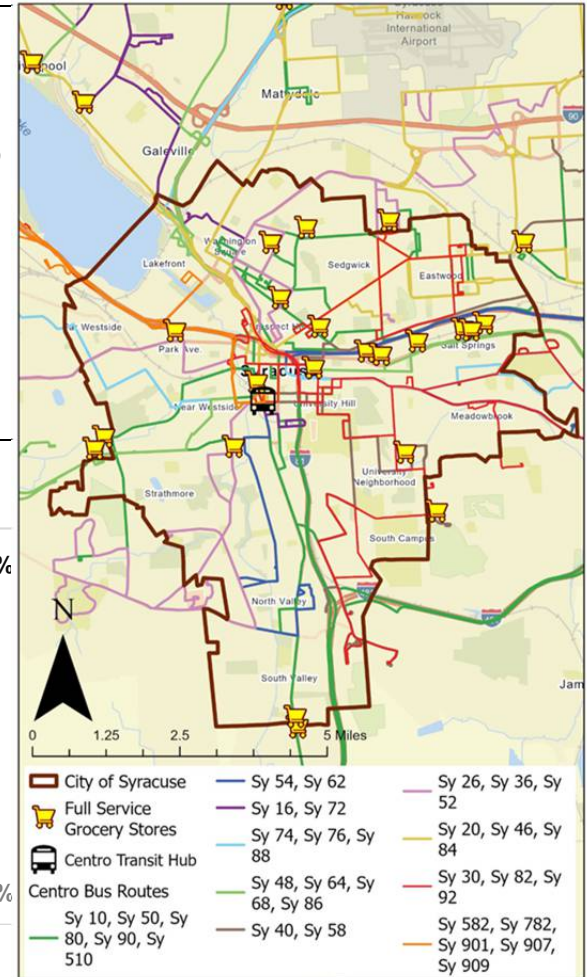

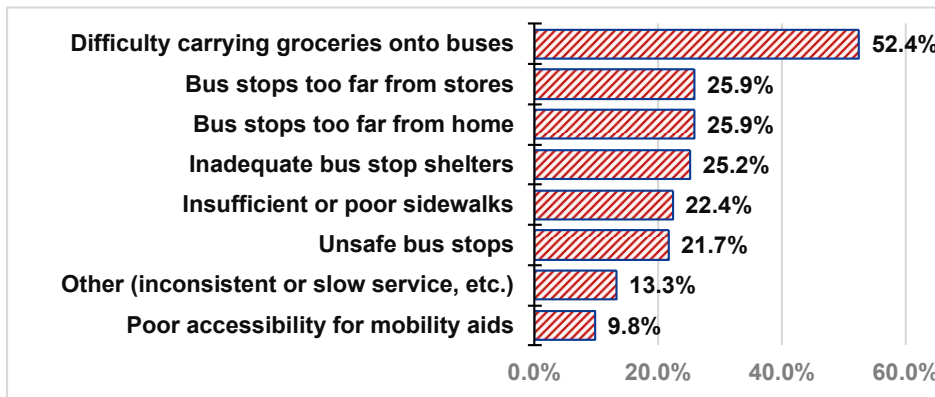

The University of California, Irvine[✳], Syracuse University[✳], and Food Access Healthy Neighborhoods Now! (FAHNN)[♥] partnered to understand grocery shopping patterns, food security, barriers to fresh food access, and residents' priorities to overcome these barriers in Syracuse, NY. **This brief summarizes results from our survey conducted October-December 2025.**

What 476 Syracuse-area residents told us about getting groceries by bus

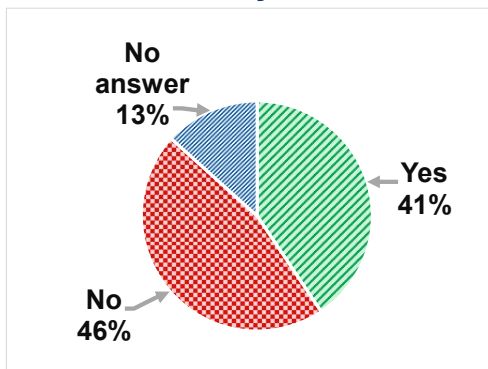

THE BIG PICTURE FROM OUR RESPONDENTS

- 21.8% do not have weekly access to a car**
- 15.2% sometimes/always take the bus to grocery shop**
- 30.0% would like public transportation to be improved for grocery shopping...**
- ...of those, 52.4% find it difficult to carry groceries onto buses**
- for 25.9%, bus stops are too far; for 25.2%, bus stops are inadequate**
